

PowerFlex®

80-100

Designed for use in a wide range of handling and carrying applications

Multi Purpose

Heavy Duty

Superb mechanical performance with comfort and a sure grip

- The Ansell Powerflex 80-100 glove is designed for use in a wide range of handling and carrying applications
- For optimum productivity and safety in construction, transport, and shipping and receiving, the PowerFlex 80-100 glove is the smart and logical choice
- Thanks to its natural rubber coating, the Ansell PowerFlex 80-100 glove delivers excellent overall mechanical performance for maximal protection and durability
- The latex coating's raised crinkle finish gives the glove an excellent grip in both dry and wet conditions
- The automatic knitted liner delivers an optimally tensioned inner surface for superb fit and flexibility
